I'd love to apply my skills and knowledge helping to develop and maintain a solid web/mobile app, along with healthy company culture.

I am eager to join an ambitious team project as a front-end developer. The team would benefit from my expertise in JS, TS, React as well as my extensive communication skills, responsivness and willingness to support other team members.

I am ready to work with React and willing to study other frameworks (Next.js, Angular, Node.js).
